After careful and considered review of the content and authorship of this paper by a duly constituted expert committee, the paper “Finding Bugs in ERP Application Using Test Data” has been found to be in violation of International Journal of Computer Theory and Engineering (IJCTE)’s Publication Principles.

This paper fully copied original text from the papers cited below. Due to the nature of this violation, reasonable effort should be made to remove all past references to this paper, and future references should be made to the following articles: Test Data Provision for ERP Systems, Proceedings of the 2008 International Conference on Software Testing, Verification, and Validation, IEEE Computer Society, pp. 396-402, 2008.
