International Journal of Computer Theory and Engineering

IJCTE

Table of Contents

Volume 1 Number 4, October 2009

Analyzing the Energy Consumption of Security Algorithms for Wireless LANs……..334

Diaa Salama Abdul. Elminaam, Hatem M. Abdul Kader, and Mohie M. Hadhoud

Performance Evaluation of Symmetric Encryption Algorithms on Power Consumption for Wireless Devices……..……....343

Diaa Salama Abdul. Elminaam, Hatem M. Abdul Kader, and Mohie M. Hadhoud

A Novel Method of Fingerprint Classification Using Image Parameters on ANFIS…….….352

B. R. Deva Vikram and Rajesh Kumar

Diagnosing Appendicitis Using Neural Network and Bayesian based Classifier Backpropagation…….358

E. Sivasankar, R. S. Rajesh, and S. R. Venkateswaran

Blind Image Fidelity Assessment Using the Histogram…….364

M. I. Khalil

Fuzzy Mathematical Model for Utilization of the Resources…….370

Manoj Kumar Jain, A. K. Dalela and Sandeep Kumar Tiwari

Resource Reservation Pricing Pitch for Prioritized Traffic in MANETs and Statistical Verification for its Hypothetical Measurements……375

M. Sulleman Memon, Manzoor Hashmani and Niaz A. Memon

Privacy Preserving Fuzzy Association Rules Hiding in Quantitative Data……382

Manoj Gupta and R. C. Joshi

A Study of Suitability and Effectiveness of Various Implementation Options of Finite Field Arithmetic on Elliptic Curve Crypto System……....389
Bimal Kumar Meher

Research on Correlative Techniques of Building Specific Topic Lexicon…….394
Shouning QU, Jian Lu, and Jing Li

Nonlinear Fading Channel Equalization of BPSK Signals Using Multiplicative Neuron Model…….….398
Kavita Burse, R. N. Yadav and S. C. Shrivastava

UML Design for Performance Evaluation of Object Oriented Programs on Dual Core Processors…….…403
Vipin Saxena and Manish Shrivastava

Link State Generation Using Antnet Algorithm……..409
D. N. Mallikarjuna Rao and V. Kamakshi Prasad

Shape Based Image Segmentation Using Bootstrap Resampling and Hcma……..413
Mamata S. Kalas

Assessment of Ocean Parameters through the Satellite Images – AOOPSI……...420
R. D. Sathiya, V. Vaidhyanathan and G. Victor Rajamanickam

DWT-SVD Combined Full Band Robust Watermarking Technique for Color Images in YUV Color Space…….…424
V. Santhi, Arunkumar Thangavelu

Hybrid Conflict Ratio for Hiding Sensitive Patterns with Minimum Information Loss…..430
R. R. Rajalaxmi and A. M. Natarajan

SystemC$_{tlm}^{FL}$: the Successor of *SystemC*^{FL}…….....434
K. L. Man and M. Mercaldi

Neuro – Genetic Cost Optimization Model: Application of Textile Spinning Process…….441
L. S. Admuthe and S. D. Apte

Reengineering Test Management For Increasing Testing Effectiveness In Component Based Enterprise Applications…….445
Jasmine K. S and R. Vasantha

Review on Applicability of Genetic Algorithm to Web Search……450
S. Siva Sathya and Philomina Simon

Secure Routing Techniques for MANETs…….456

Harsh Sadawarti and Anuj K. Gupta

Evolutionary Algorithmical Approach for VLSI Floorplanning Problem……461

Hameem Shanavas I. and Gnanamurthy R. K

A Hierarchical Possibilistic Clustering……...465

Mehdi Salkhordeh Haghighi, Hadi Sadoghi Yazdi and Abedin Vahedian

Software Development Effort Estimation Based on a New Fuzzy Logic Model……473

Iman Attarzadeh and Siew Hock Ow
