## CONTENTS

**Volume 9, Number 5, October 2017**

- **Data Theory and Engineering**
  - Review on JPA Based ORM Data Persistence Framework .................................................. 318
    *Neha Dhingra, Emad Abdelmoghith, and Hussien T. Mouftah*
  - Embedded Database Query Processing Plan Generation Using Dynamic Programming .................. 329
    *B. Selmi, H. Gharsellaoui, and S. Bouamama*
  - Analyzing Price Movement of Crude Oil through Historical Price Data Distribution by Using Apriori Data Mining Algorithm .................................................................................... 334
    *Kwan-Hua Sim, Nicholas Ching-Yun Bong, and Kwan-Yong Sim*

- **Software Design and Development**
  - A SystemC Register Model for Multiple Levels of Abstraction Using Advanced Object-Oriented Design Patterns .............................................................. 339
    *Lillian Tadros*
  - Static Checking of Range Assertions in JavaScript Programs .................................................... 346
    *Astrid Younang and Lunjin Lu*
  - SQL Injection Attacks Detection & Prevention Techniques ....................................................... 351
    *Gülsüm Yiğit and Merve Arnavutoğlu*

- **Image Processing Techniques and Methods**
  - Pupil Detection and Tracking Based on a Round Shape Criterion by Image Processing Techniques for a Human Eye-Computer Interaction .................................................................................. 357
    *Tsumoru Ochiai and Yoshihiro Mitani*
  - Comparison of Different Deep Structures for Fish Classification ............................................ 362
    *M. Sarıgül and M. Avci*

- **Computer Information Theory and Applications**
  - Automated Generation of Fill-in-the-Blanks-Type Quizzes Using Wikipedia .......................... 367
    *Naoshi Sakamoto*
  - Deep Feature Extraction for Multi-class Intrusion Detection in Industrial Control Systems ........ 374
    *Sasanka Potluri and Christian Diedrich*
  - A Suggestion-Based RDF Instance Matching System .................................................................. 380
    *Mehmet Aydar and Serkan Ayvaz*
  - Hardware Implementation of Modified A5/1 Stream Cipher .................................................... 385
    *Siti Yohana Akmal Mohd Fauzi, Marinah Othman, Farrah Masyitah Mohd Shuib, and Kamaruzzaman*
Seman

Load Management Model for Cloud Computing Using Cloudism
Priyansh Srivastava, Bhavesh Gohil, and Dhiren Patel

How IoT Helps Freelancers with a Gadget
Farzad Paridar and Mohammad Reza Majna

Dominant Eigen Vector Based Feature Selection Using Singular Value Decomposition in Automatic Modulation Classification
Afan Ali and Fan Yangyu

An Empirical Study on Usability of Online Hotel Reservation Websites
Kritsada Sriphaew and Pornphimon Katkaoe
